

Greets 

Dear Friends,

Two years have passed since we launched the program of activities and we encouraged you to gather around the EuroSpeleo Forum in Cantabria and Burgos. The COVID-19 pandemic prevented us from celebrating it in 2020 and now is the time to do so.

Following the advice of Félix Ruíz de Arcaute, who said that "the link is nothing, the important thing is the chain", we have added one more link, by simultaneously making the XI Spanish Congress of Speleology coincide, to take advantage of all the resources

September 5th, 2022 is finally approaching.

For a week, we will be able to gather around a common passion: CAVING.

We will debate, we will show our photographs, videos, exploration work, research. We will lay the foundations for future common projects. We'll laugh over a glass of wine or a beer and "keep talking about our stuff" about Speleology.

The 14th EuroSpeleo Forum and the XI Spanish Congress will serve to promote all our dreams, and together we are sure of achieving this goal.

We propose a varied list of complementary activities almost always with a common link: the karst and the exokarst. A group of people from different parts of Spain have joined forces and continue to do so that everything goes well.

We hope that all this months of work meets the expectations of all the friends who want to spend a few days with us, and that you feel at home.

In this first circular we attach:

- The **Poster** of the EuroSpeleo Forum + XI Congreso Español de Espeleología
- The website with all the info. www.eurospeleo2022.com
- Link to [online registration](#) for Eurospeleo2022 - XI Spanish Congress of Speleology

For any questions do not hesitate to contact us.

We wait for you!
